

7. The repair material according to claim 1, wherein the adhesive comprises the deformable layer, at least a portion of which changes into a sticky condition upon the application of heat.
8. The repair material according to claim 1, wherein the repair material comprises at least one punched-out piece of material.
9. The repair material according to claim 8, wherein the repair material comprises two or more punched-out pieces of material of different geometries, such that the two or more punched-out pieces together form a kit.
10. The repair material according to claim 1, wherein the repair material comprises at least one grey-coloured layer.
11. The repair material according to claim 10, wherein the grey-coloured layer is a separate piece of material from the deformable layer, the grey-coloured layer additionally including a layer of adhesive via which it can be attached to the deformable layer.
12. The repair material according to claim 11, wherein the grey-coloured layer and the deformable layer comprise a kit of repair pieces, wherein the kit includes a plurality of grey layers which have different grey values.
